“ I met Ann when I was working at Datel in Mansfield, MA in the 1980s; she had the cubicle next to me. Though we were working in different departments, we became friends and often shared family and work stories.

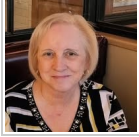

We would get together occasionally with friends, especially a shared good friend, Judi Eicher. I moved to CA in the early 2000s so lost touch for the most part. Judi would keep me up on Ann's goings on.

My heartfelt condolences to her family and friends.

“ Ann and I met in 1986, working at Datel, an electronics co in Mansfield, MA. She was in data processing, and I in Materials... we became quick friends. She had a diverse job history, as a realtor and a loan processor with Met Life and other financial companies. During two tough stretches, she lived with us. She loved tea and animals but especially bunnies and cats. This compassion caused her to take in cats in need, including two from my other close friend, Sherrill, when she passed and the cats needed a home. Her son, Bobby, was her pride and joy. She enjoyed good food, and was very proud of his culinary creativity. She also loved the water and we would go to the ocean, for sand and swim, or just sit by a beach and watch from the car, later in life. May you find rest, in the arms of the angels, my friend. You will be missed. The pic is from the Lobster Pot in Bristol, celebrating her birthday, in 2023.
