“ Renee was family and she will be mourned and missed as such. She was just a great human being always helping others or looking for those that need help. Whenever something nice was left on my desk, candy or otherwise I knew it came from her. She kept a file cabinet draw full of candy for her co workers. I teased her one day that there were no caramel M&Ms. The next morning she had put a bag of them in the drawer. I mentioned to her my love of tomatoes and that started her periodically leaving bags of tomatoes on my door. This is in addition to the home made treats that would show up on the door for my dogs. My favorite memory was the 5 months I commuted to work with her. She had heard that I had a temp medical condition that wouldn't allow me to drive for 5 months. That very afternoon she hunted me down to tell me “no problem” I'll pick you up. I have missed her since I left CT. I know of no one that loved her husband and fur babies like Renee. Rest In Peace my sister. Hope to see you again when our Lord returns. My sincere condolences to family and the myriad of others that loved this one of a kind friend/sister.
